

Tune out smog

Well-maintained Vehicle
= Less Emissions
= Less Smog

Do you want to be proactive - but you aren't sure how? Are you hesitant to ask because you don't want to feel stupid - or be ripped off?

Let us teach you a few basics about vehicle maintenance. We'll have some great insider information on how to explain your concerns and ask for what you need, to know what to expect, and to develop an effective working relationship with a reputable technician. It will be 90 minutes well-spent.

Choose Clean Air

Vehicle care workshop
